

# Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Canceled).

2. (Currently Amended) A connection method, comprising:

electrically connecting first electrodes on a first substrate and second electrodes on a second substrate with an interposed anisotropic electroconductive adhesive layer, wherein the thickness of the electroconductive adhesive layer prior to connection is given by:

$$0.5 \times \{(A^1 C^1 + A^2 C^2) / (B+C)\} \leq X \leq 2 \times \{(A^1 C^1 + A^2 C^2) / (B+C)\}$$

where:

A<sup>1</sup> is ~~the~~ a height of each first electrode, B<sup>1</sup> is ~~the~~ an electrode width of ~~each first electrode thereof~~, C<sup>1</sup> is ~~the~~ a width of ~~the~~ an interelectrode space for the first electrodes, A<sup>2</sup> is ~~the~~ a height of each second electrode, B<sup>2</sup> is ~~the~~ an electrode width of ~~each second electrode thereof~~, C<sup>2</sup> is ~~the~~ a width of ~~the~~ an interelectrode space for the second electrodes ~~(, provided that B + C = B<sup>1</sup> + C<sup>1</sup> = B<sup>2</sup> + C<sup>2</sup>)~~, and X is ~~the~~ a thickness of the electroconductive adhesive layer prior to connection.

3-5. (Canceled).
